

FAASTeam presents:

Albuquerque Balloon Fiesta Mini-Seminar - Am I Safe to Fly and Am I Willing and Able to Comply?

The first portion of the presentation will discuss strategies to determine whether the use of Over-The-Counter (OTC) and prescription medications may impair the pilot and increase the risk the pilot will face if she or he chooses to launch. The presentation will provide the pilot with information to help him or her determine the risk and a possible mitigation strategy.

The second portion of the presentation will provide an overview of the FAA's Compliance Philosophy. If a pilot is willing and able to fix his or her mistake, then the FAA will be there to help the pilot get back on track. People in the National Air Space (NAS) are safer when everyone using the NAS is voluntarily following the rules.

Directions: The seminar is located under the "G" bubble on the map found at:
http://www.balloonfiesta.com/uploads/pdfs/2016_Survival%20Guide%20Map.pdf

Alternatively: The mini Safety Seminars will be in the 7-11 Balloon Discovery Center tent on the Northeast corner of the Balloon Fiesta Park, at the North end of Concessioners' row.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
